Race-Specific Briefing Notes

<2020 GT Cup – Round 5>

<Donnington >, <24 / 25 October 2020>

Clerk of the Course: _A.D.L.Watts

Drivers Briefing - GT Cup

My name is Tony Watts and I am your Clerk for this meeting.

Firstly you will have no direct means of contacting me but the GT Cup Whats App group will be continually monitored and any questions must be passed via it to Hannah and I will reply via her.

Please ensure you have signed on via the on line system

Please note there is an on line MSVR drivers briefing available on line which you must read/watch

.

I expect you to have knowledge of the Regulations, the Supplementary and Final Instructions and all other published material.

There are significant differences between cars performance particularly in relation to straight line speed and braking distances. I ask all drivers to be aware of this and take it into consideration. Fast cars it is your responsibility to manage your way past slower cars. Slower cars, be aware that a car may be closing in on you fast and may be able to out brake you.

Driving standards recently have started to deteriorate and reports of contact are increasing Please work with the advice about fast cars overtaking slower ones In many cases you are in different classes and are not directly racing each other.

We do not want contact.

Please ensure your camera is working, set to the correct date and time and has sufficient recording capacity

Tony Watts - Clerk of the Course - 2020
